<p>Omolara Olumide Balekan (Author)</p> <p><i>Zion Kiddies World Ventures</i></p>	<p>Effect Of Business Environment On The Performance Of Small And Medium Scale Enterprises During Covid-19 Era (A Study Of Selected SMEs In Lagos State)</p> <p>Abstract</p> <p>The study examined effect of business environment on the performance of small and medium scale enterprises (SMEs) during covid-19 Era. The population of study comprised of the SMEs entrepreneurs in Ikeja, Surulere, Ikorodu, Oshodi and Lagos Island and the totaling 11,663. Thus, Krejcie and Morgan sample size determination technique was used to select three hundred and seventy (370) SMEs as the appropriate sample size using purposive sampling technique. However, it was found that economic and political environment has a negative and significant effect on performance of SMEs In Lagos state, Nigeria ($\beta_1 = -.952$; $p = 0.000 < 0.05$; $\beta_2 = -1.458$, $p = .026 < 0.05$). In contrast social environment and technological environments exert a positive and significant effect on the performance of SMEs In Lagos state, Nigeria ($\beta_3 = 3.209$; $p = 0.002 < 0.05$; $\beta_4 = .564$, $p = .049 < 0.05$). Hence the study recommended that there should be a shift to promote SME development by creating an enabling policy environment, which fosters SME competitiveness and reduces the transaction costs for smaller companies. It is important to pay attention to the fact that the removal of regulatory and administrative barriers is expected to encourage enterprises operating in the informal economy to formalize their structures, which is a pre-condition for expanding their operations.</p> <p>Keywords: Business Environment, Technological Environment, Social Environment, Political Environment, Economic environment, Business Performance</p>

<p>Bate Stallione Tambe (Author)</p> <p><i>Ministry of Agriculture and Rural Development Cameroon (MINADER)</i></p>	<p>Marketing Through Digital Media</p> <p>Abstract</p> <p>Digital media is any technology-distributed content. Electronic devices can produce, view, change, and distribute this content. Software, games, movies, websites, social media, and online advertising are digital media. Even though digital media has permeated our culture, many business owners are still reluctant to switch to internet marketing. Given how quickly technology is advancing, digital media's impact on our lifestyle is hard to deny. This report explored the pros and cons of digital media marketing and how digital technology affects various industries.</p> <p>Keywords: Digital Technology, Digital Media, Digital Marketing, Marketing plans, Digital campaign</p>

<p>Appiah Agya (Author)</p> <p><i>Agya Appiah Sikanua Enterprise</i></p>	<p>Africa: Why the Need for More Investment in Africa</p> <p>Abstract</p> <p>Africa, the second largest continent in the world and the largest resourced continent in the world with enough natural resources in gold, diamond, bauxite etc, has not fully been utilized very much with all its richness and wealth. Africa is the least invested continent as most of the least developed countries all fall within the ambience of the African continent. At least 70% of the least developed nations fall within Africa, Wale-Oshinowo, B.A., Omobowale, A.O., Adeyeye, M.M., Lebura, S. (2020). Why a rich and wealthy continent with most youthful citizens on the continent still lack the investment needed to grow the continent to its maximum potential? There is no other solutions than to invest well in the continent. Inasmuch there was strong growth in the continent, global foreign direct investment into the continent only grew marginally to 5.2% in 2021 from 4.1% in 2020, (UNCTAD). There is clearly lack of investment on the continent. Many factors attribute to the lack of this lack which includes but not limited to political instability, terrorism attack and many more, but the new Africa springing has not been realized which is why there is the need for more constructive investment from the international community to strengthen the continent, as the stability will ensure the peace of the entire world at large. The continuous improvement in technology, human capacity and education will contribute a lot, as Africa continent lack a lot of investment in these areas. If the foundations are not well laid, the stability of the other sectors of investment will be challenged.</p> <p>Keywords: Investment, Africa, Resources</p>

<p>Abel Gyamfi(Author) <i>Bugacci Ventures</i></p>	<p>Marketing Campaign Planning</p> <p>Abstract</p> <p>Effective marketing campaign planning is a critical aspect of modern business strategy, enabling organizations to connect with their target audience and achieve their goals. This paper explores the key components and strategies involved in successful marketing campaign planning, with a focus on the African context. The planning process encompasses market research, goal setting, target audience identification, message development, and channel selection.</p> <p>Integration of digital technologies and cultural considerations play crucial roles in shaping effective campaigns. By aligning campaign goals with overall business objectives and employing creative and data-driven approaches, organizations can craft compelling campaigns that resonate with the audience and yield positive outcomes.</p> <p>Keywords: marketing campaign, planning, African markets, digital marketing, target audience, cultural considerations, and data-driven approach.</p>

<p>Omary Swallehe (Author) <i>Assoc. Prof., Mzumbe University</i></p>	<p>Effects of Celebrities Endorsement on Consumer Purchase Intentions for Soft Drink Products in Tanzania.</p> <p>Abstract</p> <p>Research Purpose: The study attempted to find an answer to the effect of celebrity endorsement on customer purchase intention for soft drinks in Tanzania.</p> <p>Conceptual Foundation: The current study is built on the three main aspects of celebrity endorsement: (source attractiveness, source expertise, and match-up). It was hypothesized that source attractiveness, Source expertise, and match-up positively affect consumer purchase intention of soft drinks in Tanzania.</p> <p>Method and Design: The study employed a cross-sectional research design whereby data was collected from 450 customers of soft drinks in Dar es Salaam, Tanzania. Descriptive analysis and Stepwise multiple regression models were used to analyze the data collected for this study.</p> <p>Main results: The current study found that celebrity endorsement positively impacts consumer buying intention because it ensures the attainment of product recognition, advertisement, promotions, and others, which automatically assures consumers of buying intent. Apart from that, with the relationship between celebrity endorsement and consumer buying intention, all three predicting variables tested on the dependent variable have been found positive with a significant effect statistically on the consumers buying intent. However, of the three explanatory variables, celebrity attractiveness has more weight in explaining the impact than the other two variables.</p> <p>Theoretical/Methodological Contributions: This paper contributes to the body of literature by showing that many studies employ only two models (Source attractiveness and source expertise) in studying celebrity endorsement as</p>

	<p>independent variables. Match-up being utilized as a moderating variable, the current study has employed all three variables as independent variables, resulting in a 56.7% ability of the variables to explain the variance of the dependent variable.</p> <p>Keywords: Celebrity, endorsement, Soft-Drinks, Cross-sectional, Tanzania</p>
